LOGICA **ELIOS**

*:un volume sottile e aggettante
è il segno distintivo dell'anta Elios*

A slimline and protruding volume are the distinguishing traits of the Elios door

L'anta Elios si distingue per la particolare maniglia che interrompe le superfici creando piacevoli effetti di chiaroscuro; è disponibile nelle stesse finiture dell'anta: in legno o in tutti i colori laccati.

The Elios door stands out for the special handle which disrupts the surfaces, creating beguiling chiaroscuro effects; it is available in the same finishes as the door: in wood or in all the lacquered colours.

La puerta Elios se distingue por el particular tirador que interrumpe las superficies creando agradables efectos de claroscuro; está disponible en los mismos acabados que la puerta: en madera o en todos los colores lacados.

La façade Elios se distingue par le design particulier de la poignée qui crée un bel effet de clair-obscur sur la façade; la poignée est disponible dans les mêmes finitions que la façade : en bois ou dans tous les coloris laqués.

Der besondere Griff kennzeichnet die Tür Elios und unterbricht die Oberflächen, indem er für schöne Kontraste von Hell und Dunkel sorgt. Der Griff ist in den gleichen Ausführungen der Tür erhältlich: in Holz und allen farbigen Lackierungen.

Створка Elios характеризуется особенной ручкой, прерывающей поверхности, создавая приятные световые эффекты; предусмотрена в тех же вариантах отделки, что и створка: из дерева или всех крашенных цветов.
