

A double bed in solid wood with minimal, refined lines, comes with soft pillows for the head, in fabric or in leather, which combine with the wood of the structure. All covers can be removed. *Wish* is the best example of how Molteni&C uses wood, taking care of its aspects: from the design, which is always based on quality of rest, to the materials used, of the highest quality; from the precision of the working to the attention given to detail to create a timeless classic.
