

# Michel

## Antonio Citterio

Il sistema di sedute Michel si compone di 34 elementi, lineari e componibili, e 5 pouf, quadrati e rettangolari. A caratterizzare questo sistema, una nuova sottile struttura in alluminio verniciato nickel bronzato o cromato nero e il cuscino sedile per un diverso comfort.

Tutte le varianti, lineari e componibili, sono disponibili in due diverse profondità (cm 91 e cm 106). Questa varietà di gamma permette di configurare differenti tipologie e modalità di uso, dal formale al conviviale.

I divani Michel offrono una risposta pacata e al contempo definitiva al desiderio di comfort e di benessere, grazie ad una struttura realizzata con elementi in poliuretano schiumato, inserti in Dacron® per braccioli e schienali e piuma con poliuretano per i cuscini seduta.

The Michel seating system includes 34 linear and modular elements as well as 5 square and rectangular ottomans.

This system is characterised by a new slim structure in nickel bronzed painted or black chromed aluminium and the seat cushion offers a different comfort. All the linear and modular variations are available in two different depths (91 cm and 106 cm).

This variety in the product range makes it possible to organise different types and methods of use, from formal to casual. Michel sofas offer a serene yet definitive response to the desire for comfort and wellbeing, with a frame created from elements in polyurethane foam, Dacron® inserts for armrests and back and down with polyurethane for seat cushions.

Sistema di sedute  
e tavolino  
Seating system  
and small table

In cinque dimensioni e top in  
rovere segato fumigato, i tavolini  
Michel ripropongono il disegno e  
le finiture delle strutture dei divani.

In five sizes and top in smoked  
oak rough cut, Michel small  
tables reinterpret the design  
and finishes of sofa frames.
